

# EMBED COMPLIANCE IN YOUR LOAN ORIGINATION WORKFLOW

Enable your digital strategy with a high-performance partnership between Baker Hill's loan origination system and TruStage's doc prep technology that embeds compliance in your loan origination workflow.

**Automated and intuitive tools reduce processor time and help your institution reach its strategic goals.**

## HIGH-PERFORMANCE INTEGRATION

**LEVERAGE YOUR EXISTING DATA** Integration between Baker Hill & TruStage reduces human intervention. Rich data packets exceed industry standard, support a single system of record, and skip data auditing nightmares.

**TRUE COLLABORATIVE PARTNERSHIP** Tight alignment supports continuous solution enhancements and data optimization – out-of-the box standard with Baker Hill NextGen® means no cumbersome customization.

**INTEGRATED PROVISIONS** Configure default provisions in Baker Hill NextGen® for your transaction documents.

**EFFICIENCY GAINS** Clients using the Baker Hill-TruStage solution report double-digit operational efficiency gains compared with previous solutions.

## HIGH-PERFORMANCE SOLUTION

**COMPLIANCE UPDATES FROM THE CLOUD** No local machines to update. All configuration settings reside in Microsoft Azure. There's no data to extract and no software to install.

**DYNAMIC DOCUMENTS** No more clumsy, static PDFs. Documents are tailored to fit your policies and products to precisely fit the transaction.

**AVOID DOCUMENT PACKAGE MAINTENANCE** All documents are dynamically selected and produced based on your transaction criteria.

**PRIVATE INFORMATION REMOVED FROM THE EQUATION** TruStage doesn't store any sensitive customer information and Baker Hill is the system of record.

**CLICKS, NOT CODE** Self-service administrative console can deploy products and support collateral.
